

DISCUSSION GUIDE

March 21, 2021

1. Before we talked about pursuing each other, we learned how Jesus is pursuing us (Luke 15:1-7). By always loving us, making a big deal about us, and continuing the pursuit even when we fail. Which of these three connects deeply with you about God's pursuit of you?

2. We learned that husbands can love their wives by telling them how they look and telling them future dreams. What is something you dream for your spouse (kids, significant other, friend)? What is something you love about them?

3. Like love, respect is a universal language. We learned that wife's can love their husbands through respect. We can tell our spouse how much we respect them and how much we want them sexually. What are some ways you respect your spouse (or friend/etc)?

4. We lastly learned about the importance of our attitudes and actions showing love. Can you think of a time when your spouses' attitude or actions built you up? And can you think of a time when your attitude or actions built up your spouse?

5. Pray that God will help us continue to pursue God and each other.
